Cellular One may, at its discretion, modify requirements and charges pertaining to supporting structures which include, but are not limited to, pipes, conduits, or poles for the placement of equipment. Generally construction charges will not apply for the addition of channels or facilities required to provide better grades of service in rural areas where facilities are in place. 8. MONTHLY MINUTE ALLOWANCE

FREE4LIFE Program A Plan: Includes Unlimited Nationwide Talk and Text (SMS). This means you have no monthly minute allowance for voice calls and texts. Data that is unused will be forfeited and your unused allotment will not roll over to the next billing cycle. 10. CELLULAR ONE'S COVERAGE AREA

Cellular One's Coverage Area can be found at www.cellularoneonline.com. These maps are for general informational purposes only. The coverage maps depict the general coverage area of Cellular One. The coverage maps are not a guarantee of coverage. Coverage is not available everywhere. The coverage maps display only the predicted and approximate optimal wireless coverage for voice calls, while outdoors, of the network on which your phone may be activated including the coverage area of the network's roaming partners, if applicable. **Cellular One reserves the right, with or without notice, to manage its network parameters to prioritize your cellular service active on your device to a network of choice when you are roaming, or slow the bitrate throughput rate on a roaming partners' network.** Cellular One's decision to prioritize your cellular service to a chosen roaming partners' network, or slow the bitrate throughput rate on a roaming partners' network is based on, without limitation, signal strength, data speeds, geographic area, network congestion, quality of service or internal business decisions in Cellular One's sole discretion. The coverage areas shown do not guarantee service availability, and may include locations with limited or no coverage. Within coverage areas, there may be significant limitations or interruptions in coverage that may impact service and result in dropped and blocked connections, slower data speeds or no data connectivity and call interference. This could occur due to many factors including your device, network changes, network traffic volume, network outages, technical limitations, signal strength, the terrain and your proximity to buildings, foliage and other obstructions, weather and other conditions. You will not be able to operate your phone or make 911 calls if service is not available.

Cellular One reserves the right to cancel your FREE4LIFE service at any time in the case of fraud. In the event that Federal Lifeline funds are not sufficient to cover new applicants in any given year, Cellular One will allocate any and all remaining surplus funds until all qualified Customers are covered. Cellular One may vary the credit or the number of included minutes as required by changes in federal or state universal service funding support.

FREE4LIFE™ Additional Terms & Conditions

17. FREE4LIFE WIRELESS SERVICE

Following the execution hereof by both parties and the payment of any sums and satisfaction of any conditions required by Cellular One, Cellular One will provide Customer with FREE4LIFE/ Wireless Service ("FREE4LIFE ") in those locations where Cellular One is authorized to do so upon the terms and conditions and for the rates and charges as described herein and upon the rates, charges, terms and conditions of any tariff required to be on file with any state agency in this state. Customer acknowledges that Cellular One may, at its sole discretion, amend or add to any rates and charges for FREE4LIFE or otherwise. Customer further acknowledges that provision of FREE4LIFE is conditioned upon the uninterrupted connection between the Customer's equipment and the cellular network, as well as interconnection to wire line exchange or inter-exchange carriers.

18. MESSAGING (VIDEO AND PICTURE) AND DATA

Certain messages, including those to third parties to participate in a promotion or other program, will result in additional charges which are paid separately if you have a monetary balance on your account. Data Services are available only with particular Cellular One phones. The amount of data transmitted over our network is measured in kilobytes (KB), megabytes (MB) or gigabytes (GB). Unless specified otherwise 1024KB equals 1MB; 1024MB equals 1GB. Usage is calculated on a per kilobyte, megabyte or gigabyte (depending on your rate plan) basis and is rounded up to the next whole kilobyte, megabyte or gigabyte. Data activity on your phone occurs regardless of who initiates the activity, and you are responsible for all data activity from and to your phone. Premium content (games, ringtones, songs, etc.) are priced separately and are offered only through third-party vendors. You will be charged for data usage on a pay per use basis unless you purchase a data bundle as part of your Service, or as otherwise provided by your Service.

19. PERMISSIBLE AND PROHIBITED USES

Your Data Plan, if applicable, is intended for Web browsing, messaging, and similar activities on your Device and not on any other equipment. To provide a good experience for the majority of our Customers and minimize capacity issues and degradation in network performance, we may take measures including terminate, end, modify, disconnect, or suspend service if an individual engages in any of the prohibited data uses set forth in this Agreement or Cellular One's Fair Use Policy, found at www.cellularoneonline.com/fair-use-policy, if Cellular One, in its sole discretion, determines action is necessary to protect its wireless networks from harm or degradation. In addition, if your total usage exceeds your data plan (amount is subject to change without notice; please check Cellular One's Terms and Conditions on www.cellularoneonline.com for updates) during a billing cycle we may block you, we may reduce your bitrate transfer speed (i.e., data speed) for the remainder of that billing cycle. If you use your Data Plan in a prohibited manner that could interfere with other Customers' service, affect our ability to allocate network capacity among Customers, or degrade service quality for other Customers, we may suspend, or terminate the Data Plan on your FREE4LIFE phone. We also manage our network to facilitate the proper functioning of services that require consistent high speeds, such as video calling, which may, particularly at times and in areas of network congestion, result in reduced speeds for other services. Additionally, Cellular One may implement other network management practices, such as caching less data, using less capacity, and sizing video more appropriately for a Device to transmit data files more efficiently. These practices are agnostic to the content itself and to the websites that provide it. While we avoid changing text, image, and video files in the compression process when practical, the process may impact the appearance of files as displayed on your Device.

20. DATA PLANS

Cellular One's FREE4LIFE Program provides a monthly data allowance of 1GB and is "Unrestricted Increments of Usage" up to the monthly allowance. Unrestricted Increments of Usage means Cellular One does not intentionally reduce a user's bitrate transfer speed. Once you reach the 1GB of data of usage you will not have data capability to access data services on your Device until the next billing cycle. Billing cycles are normally 30 days. You may purchase additional data bundles by calling *123 from your handset, visiting an e-pay location, visiting a Cellular One store location, contacting Customer Care or at our Website at www.cellularoneonline.com. Some Cellular One Devices allow you to purchase data bundles on your phone. See a store or call Customer Care for details. Cellular One reserves the right, in its sole discretion, to restrict what carrier a Free4Life customer may roam on while out of the Cellular One Home Network, as well as restrict or reduce bitrate transfer speed.

21. ADDING PAY FOR USE WITH MONETARY CREDIT

Your Cellular One FREE4LIFE service will only operate when you have a subscribed product or promotion that allows certain amounts, or units or you have a positive monetary balance available on certain Cellular One FREE4LIFE handsets. You may add a monetary balance by visiting a store location, calling *123 from your handset, visiting an e-pay location, visiting a Cellular One store location, contacting Customer Care or at our Website at www.cellularoneonline.com.

Cellular One is not responsible for the Content & Apps, including download, installation, use, transmission failure, interruption, or delay, or any content or website you may be able to access through the Content & Apps. Unless otherwise stated, any support questions for these Content & Apps should be directed to the third-party seller. Cellular One offers 3G and 4G/LTE Data with “Unrestricted Increments of Usage” up to 1 GB per monthly billing cycle for Free4Life customers. This means Cellular One does not intentionally reduce your bitrate transfer speed. Once you reach the 1GB of data of usage you will not have data capability to access data services on your Device until the next billing cycle. You may purchase additional data bundles by calling *123 from your handset, visiting an e-pay location, visiting a Cellular One store location, contacting Customer Care or at our Website at www.cellularoneonline.com. Some Cellular One Devices allow you to purchase data bundles on your phone. See a store or call Customer Care for details. Cellular One reserves the right, in its sole discretion, to restrict what carrier a Free4Life customer may roam on while out of the Cellular One Home Network, as well as restrict or reduce bitrate transfer speed.

Each of our services is suitable for most or all real-time applications, including web surfing, movies, gaming, voice over IP, and music. Occasionally, at times of peak usage, some applications may run more slowly than usual. Upon reasonable request we may provide specialized services to large enterprise customers at prices to be negotiated. Data used by certain speed measurement applications will count against your data allotment. The results from some speed measuring applications may show current network speeds, rather than the reduced speed that is currently available to you. Further, Free4Life from time to time offers promotional “zero-rating” for particular applications. Zero-rating means you will not be charged for data use when you access certain applications, including but not limited to, Pandora, Facebook, Snapchat. Zero-rating promotions change from time to time so check our website at www.cellularoneonline.com, visit a retail store, or call Customer Service at (800) 730-2351 for the latest promotional offerings.

33.2 Service Plan Prices. Our monthly prices, charges, and fees for broadband Internet access service plans, including installation charges and early termination fees for some plans, can be found here: www.cellularoneonline.com.

33.3 Non-Broadband Access Data Services. We do not offer dial-up services. Cellular One’s network does have a small number of sites (less than 10% of its entire network in very remote areas of its Network) where only 2G services are available. 2G services is for voice and texting only with no data services available.

33.4 Network and Congestion Management. The Company’s goal is to provide the best possible Internet service to our customers at all times and to protect our network and customers from any undue harm that might be caused by malicious users or hackers, such as denial of service attacks. We use a variety of optimization techniques, such as TCP optimization. We do not size video streams but we do limit download throughput for video services to 500 Kbps (see TABLE 1 in Section 33.1). These techniques do not discriminate among content or websites. When a cell site experiences high demand, data speeds for users on that site may be slower until such time as traffic levels returns to normal. We do not engage in blocking, paid prioritization, or affiliate prioritization. We engineer our network to provide consistent high-speed data service, but at times and at locations where the number of customers using the network exceeds available network resources, customers will experience reduced data speeds. To provide the best possible experience for the most

possible customers, we implement network management practices on a content-agnostic basis, such as caching less data and prioritizing data usage. We also use a variety of physical, electronic, and procedural safeguards to protect our network from events that may negatively impact our customers' ability to use our Broadband Internet Access Services. We monitor our network to protect against security threats, including spam, viruses, automated attacks, worms, distributed denial of service attacks, and other potentially malicious activity. When we detect a threat, we will attempt to prevent it from spreading across our network using a variety of security measures, which may include rerouting or limiting some traffic over our network until the threat is resolved.

33.5 Device Attachment Rules. Customers may generally attach any lawful device of their choice that is compatible with our network, subject to any limitations of their data plan. Customers are advised to check our website www.cellularoneonline.com, or contact the Company prior to purchasing any third-party equipment to ensure compatibility. The Company is not responsible for the compatibility, suitability or functionality of any equipment that is provided by the customer or any third-party. If any such equipment harms our network or degrades the service of other users, the customer may be required to disconnect the device and, in some cases, we may suspend or terminate service to customers that in our sole judgment are causing or contributing to harm.

33.6 Security and Privacy.
